-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) filed Jan. 31, 2005 is acknowledged.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-30 and 48-62 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abraham (6,450,639) in view of Matera (2004/0017540).

See the previous action.

Response to Arguments

4. Applicant's arguments filed Jan. 24, 2005 have been fully considered but they are not persuasive. The applicant argues in page 4, line 15+ that "the examiner has given no evidence to show where either Matera or Abraham disclose apertures having an angle separating the top surface of the brow web and the internal side of an aperture is approximately forty-five degrees or less". These arguments are not true. Matera discloses that "In a most preferred embodiment, the aperture 50 are angled such that the axis of the opening angles downwardly away from the eye" (see page 2, column 1, lines 56-59) for the reasons "any ambient light that happens to enter the aperture 50 is directed away from the eye" (see page 2, column 1, lines 52-54). Thus the Matera's teachings are substantially the same as the applicant does for the same reasons "any ambient light that happens to enter the aperture 50 is directed away from the eye". The applicant

Art Unit: 2873

also argues that the examiner has give no evident to show where either Matera or Abraham disclose apertures having an angle ... is proximately forty-five degrees or less.” Firstly, the applicant invention as claimed in claims 1-5,7-22,24-30,48,49 does not require for such “proximately forty-five degrees or less”. Secondly, the angle of “proximately forty-five degrees or less” is an engineering design choice as long as the aperture is angled such that the axis of the opening angles downwardly away from the eye for the same reasons of any ambient light that happens to enter the aperture is directed away from the eye as disclosed by Matera as the same as the applicant does.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
